♦ Education

Wilfrid Laurier University - 75 University Ave W, Waterloo, ON

Expected grad: June 2023

- Honors Bachelor's Degree in Computer Science (BSc)

GPA: 9.48

♦ Work Experience

Google Computer Science Summer Institute - Kirkland, Washington

Jul 2019 - Aug 2019

- Engaged in a Google operated project-based curriculum where members learn and utilise coding languages including HTML/CSS, Python, and Javascript to create and test various tasks including the deployment of a webapp project using Google Appengine.
- Contributions towards the webapp included a functional login script, implementation of a Yelp API, and extracting user input data to generate restaurant options within 10 mile radius of the user.

Segal I.T. Networking Technician - Toronto, Ontario

Sept 2021 - Dec 2021

- Assisted company system administrator through daily activities such as updating/troubleshooting system hardware and software, including monitoring of company network and data security systems, including active directory, virus protection, group policy, AI, and email security.
- Provide helpdesk and technical support both remotely and in-office ranging from software updates to hardware issues using the IT Ticketing system.
- Assisted with the design, implementation, and support of new software and features for company use.

Amazon Warehouse FC Associate - Caledon

May 2020 - Aug 2020

- Thrived in a fast-paced environment involving working with and around computers, fork lifts, order pickers, and other machinery/technology to pick, pack, receive, and stow large quantities of merchandise.

McDonalds Crew Member - Schomberg

June 2016 - June 2018

- Operated register and handled money. Worked jointly with co-workers and communicated with customers to complete tasks and resolve issues effectively.

♦ Volunteer and Leadership Experience

Surad H2O NFP Volunteer

June 2017 - Present

- Organized fundraisers to raise money and helped with equipment set-up and maintenance before, during, and after events.
- Promoted initiative of fundraising for well building in Africa.

Richmond Green S.S. Peer Tutor Program - Richmond Hill

Sept 2018 - July 2019

- Assisted with and taught 11th grade mathematics and provided guidance for fellow students to improve academic performance and fundamental mathematics skills.
